

HORNE STREET SCHOOL IS PROUD TO HOST

ELEMENTARY TECH TALK

A CELL PHONE AND GAMING INFO NIGHT FOR PARENTS

OCTOBER 23 6:30 PM

During this free event, the Dover Police Department will talk with parents about children and cell phones/online gaming. This talk will be geared towards parents of upper elementary students who have been given cell phones and will focus on how to keep students safe, as well as informing parents of the types of online activities many of our students are participating in (yes, even in elementary school!). Our intent is to be proactive and empower parents. This talk is open to all elementary school parents and staff.
